Stainless Steel & Aluminium Parts

Quality Somfy Motorisation

The Aberdeen Fabric System is a unique, high quality straight drop awning suitable on balconies, verandahs and windows. The elegance and strength of this system places it in a class of its own. Stainless steel and aluminium components ensure reliable operation and stylish visual impact. The Aberdeen provides maximum protection and privacy with minimum hardware. This system will provide solutions to both privacy and solar protection issues. A motorised system provides a smart option for your living and work environments.

**Parts:** Aluminium and Stainless Steel.

**Cables:** Stainless Steel.

**Bottom Rail:** Weighted bottom rail resists winds and therefore minimises flapping helping to maintain constant fabric tension.

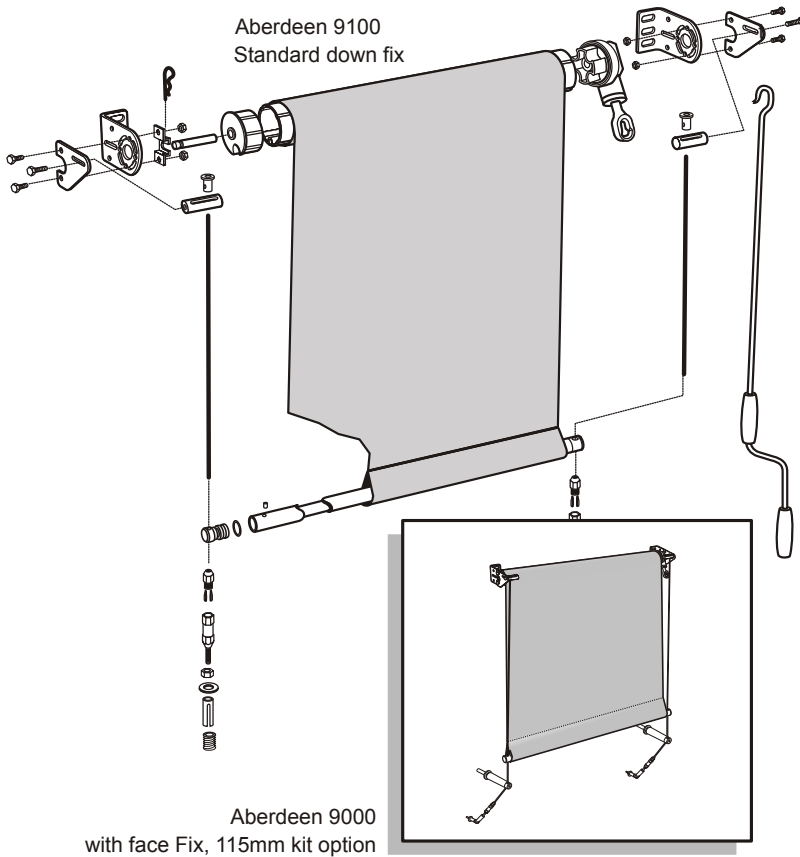

**Sizes:**  
 Maximum width with 78mm top roller 5100mm  
 Maximum width with 70mm top roller 3150mm  
 Maximum drop 3000mm

**Quality:** 2 Year Guarantee.

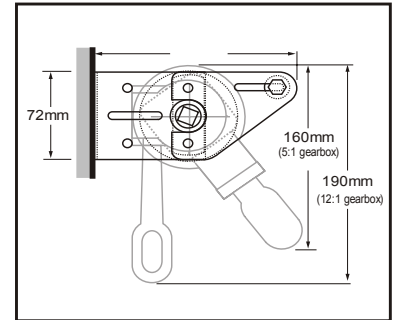

**Operation:** Can be equipped with electrical operation, using a tubular motor. For the ultimate in comfort an automatic wind-sun sensor regulates the awning automatically, depending on the light intensity and the wind speed. Manual operation using a crank and gearbox is also available.
